

**Colegiul Tehnic "Gheorghe Asachi" Focsani is a VET public educational institution which has provided education and training in the field of textile industry since 1883. It is located in South –East of Romania, in a medium sized-town called Focșani, in Vrancea County.**

**COLEGIUL TEHNIC "GHEORGHE ASACHI"**  
**FOCSANI - VRANCEA**

**Our college has now 46 teaching staff, 36 auxiliary staff and 560 students.**

**Due to a significant decrease of textile industry, in 2007 we decided to diversify our school offer with three new qualifications in hospitalities: banqueting organiser, gastronomy technician and tourism agent because these professions are more wanted on the labour market.**

**We offer our students (aged 14-19) theoretical and practical training in textiles, tourism and hospitalities through 4-year highschool studies and 3-year professional school studies according to the Romanian laws of education.**

**We also provide highschool evening classes for adult students who abandoned their studies and who want to complete their education.**

**For those interested in continuing education in the study domain, we offer 2 year-post-highschool studies in the field of textile industry.**

The background of the slide features a series of overlapping, wavy bands in various shades of blue, ranging from light sky blue to a deeper cerulean. These bands create a sense of movement and depth, resembling water or a stylized landscape. The text is centered in the middle of the slide.

**80% of our students come from surrounding rural areas, most of them being commuters or living in our college boarding school.**

**The mission of our college** is based on the community needs to have efficient educational institutions that provide well trained students able to integrate in the labour market or to continue their studies, to educate youngsters and adults including those who come from disadvantaged environments according to European standards by rapid and efficient social and professional integration which contributes to quality growth of life in the local community.

**The values of our college are:** offering equal development chances to all students and teachers, a wide range of qualifications and types of educational forms, collaboration with local community representatives and with the students' families.

**Our vision** is to have more motivated management and teaching staff able to organize their professional career independently and with dignity, to facilitate better social and professional integration of students in the European community and to integrate the staff's personal and professional developments into 2014-2020 European strategy through the promotion of international cooperation, digital learning, language learning and linguistic diversity derived from opportunities to undertake professional and learning experiences in other countries.

# Dezvoltarea Colegiului Tehnic "Gheorghe Asachi" prin strategii inovatoare de management și de predare, 2016-1-RO01-KA101-023552
